Hi Becky:

There was some back and forth with this sentence. Michael initially had concerns with it, but Jim and Rick both agreed to stick with the RA's proposed language change. Do you want me to contact Denise to change this sentence (if possible, it may already be with Susan)? Please let me know how to proceed.

Thank you,

Lauren,

I was out yesterday afternoon after 2p and am just now seeing the RA's comments and the changes. I have a problem with the sentence that says "EPA will continue to work with you, the City of Kalamazoo, and other stakeholders to develop a proposed cleanup plan, to be released for public comment." This sentence reads as if these other parties will be helping us actually develop the proposed cleanup plan, and I don't believe that's accurate. Was Joan ok with that language? Only EPA develops/prepares proposed cleanup plans, just as only EPA writes Records of Decision. Michael's edits to this language are much preferred: "EPA will continue to work with you, the City of Kalamazoo, and other stakeholders as EPA develops a proposed cleanup plan, to be released for public comment."
